

WILLOWTREE®
a TELUS Digital Company

Lucas Lukasavicus Silva

City: Sao Paulo, Brazil

Professional Summary

Data & AI Manager with extensive experience in **data engineering, solution architecture, and team leadership**. Skilled in **batch and real-time data pipelines, cloud platforms (Azure, AWS), and advanced data analytics**. Passionate about **AI, machine learning, and innovation**, with a strong background in **software engineering, data governance, and business intelligence**.

Professional Experience

WillowTree (June 2024 – Present)

Data & AI Manager

- Leading data engineering and AI initiatives to drive business innovation.
- Managing data infrastructure and implementing machine learning solutions for advanced analytics.
- Overseeing team development, data governance, and strategic technology adoption.
- Implemented data pipelines using gitlab, and AWS suit for a large Telecom company.
- Leading P&D project and implementation of Data Engineering best practices and Data Platform.

Bain & Company (April 2023 – June 2024)

Senior Data Engineer

- Developed batch data ingestion pipelines using Microsoft Azure.
- Built and maintained Dash Enterprise applications for data analysis.
- Designed and implemented a Quality Assurance Framework for data pipelines.
- Integrated Databricks with Tableau for enhanced data visualization.
- Established data architecture for business intelligence and analytics projects.
- Infrastructure to projects related to fraud detection and text analysis solutions.

BTG Pactual (June 2021 – December 2022)

Data Engineer

- Managed data modeling and governance for business intelligence initiatives.
- Developed batch and real-time ingestion pipelines using AWS services.
- Designed a custom ingestion framework with PySpark and AWS EMR.

- Implemented Lambda architecture for payment processing, integrating batch and near real-time data.
- Led cross-functional data teams, coordinating engineering, governance, and visualization efforts.
- Developed a business intelligence portal using AWS and Angular.
- Used data observability systems integrating Datadog, and AWS.

Safra (January 2019 – July 2021)

Data Engineer

- Designed data models and developed data visualization tools.
- Built and optimized an ETL job scheduler for data transformation.
- Led the internal budget system project for financial planning.
- Served as Product Owner for a money laundering prevention system using Red Hat Process Automation Manager and Apache Camel.
- Managed the fraud prevention ecosystem, deploying Feedzai's risk assessment suite.

Trainee

- Rotated through key departments, including Credit, Risk, Audit, Back Office, and IT.
- Developed data-driven projects in business intelligence, PMO, and machine learning.

B2W Digital (October 2018 – December 2018)

Market Intelligence Analyst

- Automated business intelligence processes and improved reporting structures.

Deloitte (February 2017 – October 2018)

Advanced Analytics Consultant

- Applied PMBOK and Lean Six Sigma methodologies to optimize business processes.
- Conducted process mapping and technology integration for multinational clients.
- Developed executive dashboards in Tableau, connected to Amazon Big Data environments.
- Led robotic process automation (RPA) training and proof-of-concept initiatives.

Squid (January 2017 – February 2017)

Full Stack Developer

- Developed web applications using the MEAN stack (MongoDB, Express.js, AngularJS, Node.js).
- Applied data analytics to social media insights.

InstaCarro.com (June 2016 – August 2016)

Growth Hacking Intern

- Managed marketing data and implemented customer acquisition strategies.
- Led customer service automation projects (NPS, SMS, WhatsApp, email).

Skills

- Cloud & Data Engineering: AWS, Microsoft Azure, Databricks
- Programming & Automation: Python, PySpark, SQL, Angular, Terraform
- Data Processing & Visualization: Tableau, Dash Enterprise, Feedzai
- DevOps & Monitoring: Kubernetes, Datadog, Apache Camel
- Machine Learning & AI: Fraud Detection, Text Analysis, Advanced Analytics

Education

- **Master's in Data Science** – Instituto Tecnológico de Aeronáutica (ITA) (2022 – 2024)
- **MBA in Business Intelligence & Business Analytics** – PUC Minas (2021 – 2023)
- **MBA in Data Science** – Universidade de São Paulo (USP) (2020 – 2021)
- **Bachelor's in Computer Science** – Universidade Federal de São Carlos (UFSCar) (2013 – 2017)
